REVISED PETITION RE IMPROPER FINAL REJECTION

NOV 29

Commissioner of Patents and Trademarks  
Washington, D.C. 20231

In response to Communication dated 11/16/90 from Director of Group 210, still under paragraph 37 CFR 1.181a, Applicant herewith submits a revised petition to Commissioner; by which petition Applicant requests Commissioner to instruct Examiner to change his final office action dated 09/26/90 to a non-final office action.

The finality of Examiner's most recent office action is inappropriate for the reason that it contained an initial rejection of claims 139-142. Thus, Applicant was never provided an opportunity to respond to Examiner's initial rejection of these claims 139-142.

In other words, Examiner rejected claims 139-142 without ever providing Applicant with an opportunity to traverse these rejections.

Also, Examiner improperly denied entry of Applicant's Amendment E; which Amendment E -- prior to Examiner's initial rejection -- provided for amendments to claims 139-142.
